2. Target word count
3. Search intent analysis
4. Top 5 competing articles (what they cover, what they miss)
5. Unique angle/hook
6. Detailed outline (H2s and H3s)
7. Key points to cover in each section
8. Expert sources to cite
9. Internal linking opportunities
10. Visual content suggestions (charts, infographics)
11. CTA recommendation
12. Estimated time to write

Make this brief detailed enough that any writer could produce the article without additional research.

PROMPT 48: Keyword Cluster Strategy

Create a keyword clustering strategy for a [NICHE] website.

Seed keyword: [KEYWORD]

Website authority: [New / Established / High Authority]

Content goal: [Traffic / Leads / Sales]

Generate:

1. Primary pillar topic (1 main keyword)
2. 5-8 cluster topics (supporting keywords)
3. For each cluster:
 - Target keyword + search volume estimate
 - Search intent
 - Suggested content type
 - Title suggestion
 - Internal linking plan (how it connects to pillar)
4. Content creation priority order
5. Estimated traffic potential per cluster
6. Quick-win opportunities (low difficulty, decent volume)

Present as a table + content map visualization description.

PROMPT 49: Competitor Content Gap Analysis

Analyze the content gap between my website and a competitor.

My site: [YOUR DOMAIN]

Competitor: [COMPETITOR DOMAIN]

Niche: [NICHE]

Provide:

1. Topics competitor covers that we don't
2. Topics we cover better than competitor
3. Content format gaps (video, infographic, tool, etc.)
4. Keyword opportunities competitor ranks for that we could target
5. Content quality comparison (depth, freshness, multimedia)
6. Backlink opportunity differences
7. 10 specific content pieces we should create to close the gap
8. Priority ranking for each suggestion

Format as actionable content plan with estimated impact.

PROMPT 50: FAQ Schema Generator
